

Thermostat management software that delivers savings and comfort.

Improve your net operating income while providing a superior resident experience.

Get control and visibility from anywhere.

- Use SmartBuildings and its mobile app to make global changes to thermostats from anywhere and save your teams time.
- Reliable reporting allows your teams to manage HVAC issues remotely, without the need to enter senior residents' suites.

Improve resident independence.

- Easy, intuitive smart hardware for senior residents to operate.
- Residents with physical conditions can control their comfort with their voice, using Alexa Built-in to adjust temperature.

Save on energy and operational costs.

- Increase energy savings by making remote thermostat adjustments to vacant units and common areas.
- Important temperature alerts help you avoid costly repairs due to incidents like frozen pipes.

Extend the lifespan of your assets.

- Get service reminders to maintain the efficiency of your equipment.
- Receive performance alerts to stay one step ahead of equipment failures.

ecobee | SmartBuildings

Smart that brings you control.

40 hours_{/mo.}

Labor savings at Fellowship Square due to ecobee SmartBuildings' remote thermostat access.

tom's guide

Since launching the first ever smart thermostat in 2007, ecobee has developed the award-winning SmartThermostat with voice control, named "Best Overall Smart Thermostat" by Tom's Guide.

"Senior living apartments with ecobee smart thermostats gave our residents more independence. ecobee SmartBuildings is the most affordable, user-friendly smart thermostat solution."
