

# GENUINE CARLYLE REMANUFACTURED COMPRESSORS *NOW SHIPPING WITHOUT OIL*

All factory production of Genuine Carlyle® Remanufactured 06D and 06E compressors has converted to oil-less condition.

Because there is still inventory of oil-**filled** units – your inventory and factory inventory – different model numbers will convert from oil-filled to oil-less at different points in time.

Use the guide below to identify which models are oil-less.

For oil-less models, use the information on page 2 of this document to ensure that your customers have the oil they need to complete the job.
